

Troop 680 Transportation Information Form

The Troop is always in need of drivers for our outings. We must submit specific information with each Outing Permit for each **driver** and **vehicle** transporting Scouts on that outing. To simplify this requirement, the Troop maintains a database of the necessary information for all drivers and vehicles in the Troop, and submits this entire list with each permit. Please provide the following information for all drivers and vehicles that your family might use for Scout transportation. We will check with you periodically to make sure your information is up to date. This can be done via email if available.
